THE LARGE-YARD ALL-TERRAIN MASTER

WHY X4 SERIES

The Navimow X4 Series is built to **conquer where other robots stop** — steep grades, ruts, patio-to-lawn transitions, and complex layouts — while caring for your turf where others compromise. Its Xero-Turn™ AWD platform, MowMentum™ dual-disc cutting, and wire-free EFLS™ NRTK positioning bring flagship capability to lawns from a large suburban yard up to **1.5 acres**.

MOWMENTUM™ DUAL-DISC DECK · 12 BLADES

MOWING ZONES

01

XERO-TURN™ AWD

4WD · 84% SLOPES · DUAL SUSPENSION

A next-gen four-wheel-drive platform with 5:5 balanced weight and dual suspensions climbs slopes up to 84% (40°) and clears vertical obstacles up to 2.8 inches — going where other mowers simply stop.

02

TURF-SAFE ZERO-TURN

FRONT-WHEEL STEERING · PATENTED TCS

Instead of brute-force spins that tear turf, front-wheel zero-turn steering blends traction and agility for tight, precise turns that leave no scuffs. Traction Control adjusts torque to prevent slipping.

03

MOWMENTUM™ CUTTING

17" DUAL-DISC · 12 BLADES · 224W

A dual-disc, 12-blade deck delivers 1.8× the coverage of single-disc systems at 2.6 ft/s, with 224W fast charging — a full charge in as fast as 90 minutes — maintaining up

04

WIRE-FREE SETUP

EFLS™ NRTK · NO ANTENNA TO INSTALL

Tri-frequency Network RTK, 360° VSLAM, and VIO deliver centimeter-level accuracy with no local antenna to install. Drop it down, let it auto-map, and mow — true plug-

INTELLIGENCE IN EVERY PASS

ADVANCED BY DESIGN

EASY SETUP

AUTO MAPPING · GEOSKETCH™

Real-scene maps, hands-free

Auto-recognizes boundaries and builds freehand maps with no supervision. Triple panoramic cameras and ToF sensors generate top-down, real-scene maps you edit live on your phone.

PRECISION POSITIONING

EFLS™ NRTK

NRTK + 360° VSLAM + VIO

Tri-frequency Network RTK, 360° VSLAM, and Visual Inertial Odometry hold centimeter-level accuracy under tree canopy, near structures, and where satellite signals are partially blocked.

AI OBSTACLE AVOIDANCE

360° VISIONFENCE™

Panoramic · Animal-Safe

Detects obstacles within 16 ft and reroutes in 0.1s, keeping a safe distance with 5.9 ft night vision. Recognizes 200+ object types and actively protects pets and wildlife.

SMART LIVING

120 ZONES · IP66 · OTA

Effortless control

Manage up to 120 zones with no-go areas and full scheduling. IP66 dust/waterproof, quad-layer security, smart-home voice control, rain sensing, and seamless over-the-air updates.

SAY GOODBYE TO ANTENNAS

NO EXTRA COST

With Network RTK support there's no local antenna to install — connect through the app and the mower is ready. Access is included at no extra cost, with required cellular data provided free, and the mower auto-connects to the nearest, strongest certified signal.
